

# 70/30 ECONO

SUSTAINABLE STRENGTH AT EVERY STITCH

POLYCOTTON  
70/30  
ECONO

Our Econo fabric is highly valued for its exceptional **durability and colour retention**, even after frequent washes, making it a top choice for hard-working uniforms across industries.

Its affordability and resilience, combined with its ability to be customised, ensure it meets specific needs. Moreover, it's eco-friendly, aligning with sustainable practices and values.

Crafted from regenerated cotton yarns, it embodies functionality, affordability, and environmental consciousness, offering unmatched durability, value, and color retention. Notably, it goes beyond reliability, embodying sustainability at its core by giving a second life to cotton waste that would otherwise end up in landfills.

At Loomcraft, we offer optional 3x1 twill or 1x1 plain weave, providing additional versatility.
